Hi, my name is Claire Leeds,

I started childminding in 2012 after many years working in the military and in IT, although this may seem a little strange, working in IT to looking after children, but caring for children is something I have always wanted to do professionally, I have a great passion for it. It seemed like a natural progression for me from my early adulthood as a babysitter on a Saturday night, to having my own family and to opening the nursery in 2016.

We have built the business over the last 4 years from an Outstanding childminder to a brand new nursery with aspirations of keeping this grade. The business has grown through word of mouth in the local area and in my opinion this is the best kind of recommendation.

The Kinderhouse Nursery is where my enthusiasm and passion is generated. I love all of the children, the way they think, learn and develop. I am making this nursery a place which is of great quality, homely and most of all where the children love to come and play and learn. I strive to go that extra mile for all individual children and their families, like I would do for my own family.
